

We're Going on a Bear Hunt

Michael Rosen *Helen Oxenbury*

Take this scavenger hunt list outside to see if you can find the bear as you make your way through all parts of the story.

Mark off the different areas you are able to find:

- **Long wavy grass:** Can you find long wavy grass near your home? When you wave it side to side what does it make?
- **Mud:** Has it rained a lot near your home? Can you find sticky mud outside? Don't step in it, you don't want to get stuck.
- **River:** Do you live near a river? Can you find some type of water near your home? A puddle? What sound does it make as it moves?
- **Forest:** How close are you to a forest? If not close at all, what trees do you see outside your home? Can you stand tall like a tree? Don't stumble and trip!
- **Snowstorm:** Is it snowing outside? Hopefully not! But can you find something outside that is the shape of a snowflake? What color is it?
- **Cave:** Quiet, oh no... it's a ... BEAR!!! Can you find spots around your home where a bear or other animals might find to live? Do animals make homes in trees? Can you find animal homes on the ground?

Were you able to find all 6 of the Bear Hunt Scavenger Hunt locations?
